Terms and Conditions

1. DEFINITIONS

Term	Meaning
Output	A single generated file identified by a StrandID and measured independently. A report issued by Strand may cover one Output or many.
Deliverable	One Output or many Outputs grouped together to form a single audiovisual creation.
Finished Work	The work the Licensee assembles from the Deliverables covered by this Report, together with any other material. The Finished Work is not measured by Strand, and Strand makes no representations or assumes any liability in connection with the Finished Work.
Enrolled Reference Asset	An asset ingested into the Strand reference library and available for model conditioning and licensing.
Evaluated Content	Those Licensed Assets, Licensee-supplied assets, and any Unattributed Residual included in any Deliverable.
Attribution	The measured proportion of Evaluated Content in a Deliverable matched to an Enrolled Reference Asset under the methodology in force at the time of measurement.
Attributed Share	Attribution expressed as a percentage of total measured pixels in Evaluated Content. Deliverables with more than one Output will have the percentage calculated over total pixels in the Deliverable.
Unattributed Residual	Evaluated Content not matched to any Enrolled Reference Asset or Licensee-supplied assets. Strand makes no representations as to any rights subsisting in such Evaluated Content.
Declared Use	The use parameters set forth on page 1 under Declared Use as submitted by the Licensee on the Production Details form before generation of any Output(s).
Licensed Asset	An Enrolled Reference Asset set forth in the Licensed Asset Schedule on page 1.

2. GRANT OF LICENSE

Subject to payment of the Fee set forth on page 1 and to the terms of this Report and the Terms of Service, Strand Intergalactic, Inc. ("Strand") grants the Licensee a non-exclusive, non-transferable right to reproduce, distribute and publicly display the Licensed Assets solely as embodied in the Deliverable(s) identified in this Report, whether such Deliverable(s) are used individually or assembled in a Finished Work, solely within the Declared Use, Territory and Term set forth on page 1. For clarity, Licensee may reproduce and display the Licensed Assets solely as embodied in the Finished Work for (a) archival and record-keeping purposes, (b) inclusion in Licensee's professional portfolio, and (c) other non-commercial or internal purposes, including display on Licensee's own website and social media accounts (collectively, "Portfolio Uses"). Any display of the Finished Work on social media must be organic only. Licensee may not pay to promote, boost, sponsor, or advertise any post that contains the Finished Work, whether directly or through a third party. Portfolio Uses do not permit Licensee to sell, license, or distribute the Finished Work, or to use it in advertising or to generate revenue, unless included in the Declared Use. This Section survives the expiration or termination of this Agreement.

The Licensed Assets are owned by their licensors and are sublicensed by Strand subject to any limitations imposed by the applicable licensor (the "Asset Restrictions"), as set forth in Section 7 of this Report. As between Strand and Licensee, Licensee owns its Inputs and Outputs, but as between Licensee and the applicable licensor, ownership and derivative works are governed by the Asset Restrictions. Licensee will not clone, replicate, copy or otherwise interfere with any licensor's Assets and will comply with applicable attribution requirements, including any required payments.

Strand grants this license as sub-licensor under its content licensing agreements with the applicable third parties, including, but not limited to, those certain licensors identified in the Licensed Asset Schedule. Where an asset is Licensee-supplied, no license therein or thereto is granted by Strand or otherwise hereunder and the Licensee's use thereof shall be subject to the rights of Licensee or any third party thereto, which Licensee shall be solely responsible for obtaining, and Strand does not make any representation, provide any warranty or grant any rights in connection therewith.

3. RELIANCE

- This Report is addressed to the Licensee named on page 1.
- Distributors, broadcasters, platforms and errors-and-omissions insurers to whom the Licensee delivers the Outputs may rely on this Report to the same extent as the Licensee, provided, however, that the granting of such reliance is for informational purposes only and does not, and is not intended to, make any such person or entity a third-party beneficiary of this Report or of any related agreement, or confer upon any such person or entity any right, remedy, or claim against Strand.

- Licensors identified in the Licensed Asset Schedule may rely on this Report as a record of measurement and payment, provided, however, that such reliance is permitted solely for that purpose and does not make any such licensor a third-party beneficiary of this Report or any related agreement, and creates no right, remedy, or cause of action in favor of any such licensor.
- No other person may rely on this Report without the written consent of Strand for any purpose.

4. SCOPE OF REVIEW

- Examined: the Outputs listed on page 6, compared against the enrolled reference library as constituted on the issue date set forth in the footer hereto (the “Footer”).
- Method: automated visual similarity measurements at the sample interval set forth in the Appendix. No human review was performed.
- Not examined: trademarks, trade dress, logos or other marks, or likeness of any public person appearing in any Output; music, sound or other audio rights; location or property rights; rights subsisting in the Unattributed Residual; and any Finished Work assembled from the Deliverables, including material the Licensee combines with them.
- This Report measures the Outputs as generated. If the Licensee trims, reorders or omits any Output when assembling the Finished Work, the Attributed Share of any Licensed Asset embodied in that Finished Work may differ from what is set forth here.
- This Report reflects Deliverable measurements using current Method as of the issue date listed in the Footer. Strand does not monitor this Report after issuance and has no obligation to update or reissue this Report should such measurement Method change.

5. ASSUMPTIONS/REPRESENTATIONS

The measurement set forth herein and license granted pursuant to this Report rely on the following, taken as true without independent verification by Strand:

- Each licensor owns or controls the assets it supplied and has authority to license them, and to allow Strand to sub-license the same, on the terms set forth herein.
- Any representations made by licensors of Enrolled Reference Assets as to releases in connection with any model, property and other materials embodied in any Enrolled Reference Asset are accurate and current.
- Licensee warrants and represents that the Declared Use set forth on page 1 is accurate and complete.
- Licensee-supplied material is owned by or licensed to the Licensee as represented at upload.
- The Outputs measured in preparing this Report are the Outputs generated for Licensee, and Licensee has not altered the Outputs between generation and measurement.

6. PERMITTED USE

The Licensee’s rights to use the Licensed Assets as embodied in the Outputs identified in this Report shall be strictly limited to uses solely complying with the Declared Use set forth on page 1, and for the Term and in the Territory set forth on page 1. Editing, resizing, color grading and assembly of the Outputs into a Finished Work are permitted within that scope. Any use outside the Declared Use set forth on page 1 requires a new declaration and a new report.

7. RESTRICTIONS

Restrictions applying to Licensee’s use of any Licensed Asset pursuant to the License provided in connection with this Report derive from two sources: the terms of Strand’s applicable licensing agreement with each applicable licensor, and the guardrail rulesets in force as of the issue date set forth in the Footer, which such restrictions are as follows:

Licensor-derived

Licensor	Assets	Restriction
Licensor 1	AST-114-0072, AST-114-0298	[Per Licensor 1 content licensing agreement]
Licensor 2	AST-227-0451, AST-227-0512	[Per Licensor 2 content licensing agreement]
Meridian (upload)	AST-U-0031	None imposed by Strand; governed by the licensee’s own rights

Guardrail-enforced

Ruleset	Version	Enforcement at generation
Community Rules	v4.2	Community content categories blocked
Ratings Rules	v2.1	Output constrained to the rating tiers set by Licensors
Custom Rules	v1.8	Output constrained by Licensor specific rules

Terms and Conditions (continued)

8. EXPIRY AND POST-TERM

- The license expires on the Expiry Date set forth on page 1. New distribution by Licensee must cease on that date.
- Material already distributed within the declared channel before expiry may remain in place unless the Licensee is notified otherwise.
- Renewal is available. Where the Outputs are unchanged, measurement need not be repeated and the existing Attribution record will be carried forward at the then-applicable rates.

9. ASSIGNMENT

- The license is non-transferable, except that it may be assigned together with the Finished Work to a distributor, broadcaster or platform operating within the declared channel.
- Assignment does not extend the Declared Use, Territory or Term, and the assignee takes the license subject to these terms.
- [Notice of assignment to be given to Strand within the period stated in the Platform License Agreement.]

10. WARRANTIES, INDEMNIFICATION AND LIMITATION OF LIABILITY

- Strand warrants that the measurement done to arrive at the Attributed Share(s) as set forth in this Report was performed in accordance with the Method in force at the time of issue listed in the Footer, and that Strand has obtained all of the rights, consents and permissions from any licensor set forth on page 1 required to grant the License hereunder at that time.
- Strand does not warrant that the Outputs are free of third-party rights outside the enrolled reference library. The warranty above is exclusive and in place of all other warranties, express or implied, including any implied warranty of merchantability or fitness for a particular purpose.
- Strand shall indemnify the Licensee against third-party claims arising solely from Licensee's use of the Licensed Assets set forth in this Report, but solely to the extent such use is authorized herein and made pursuant to the terms hereof, up to the aggregate liability limit set forth in this Section 10. No indemnity applies to user-supplied material or to any use of any Deliverable outside the Declared Use set forth on page 1.
- Licensee represents and warrants to Strand that, in addition to the representations set forth in Section 5: (a) Licensee has full power and authority to accept this Report and to perform its obligations hereunder; (b) Licensee owns or controls, or has obtained, all rights, licenses, consents, permissions and releases (including model, property and likeness releases and the consent of any depicted individual) necessary for any assets, uploads, prompts, reference images and other material or inputs submitted by or on behalf of Licensee (collectively, "Licensee Materials") to be used by Licensee as embodied in the Deliverables and any Finished Work; (c) neither the Licensee Materials nor any use thereof as contemplated by this Report infringes, misappropriates or otherwise violates any intellectual property, publicity, privacy or other right of any third party, or violates any applicable law; (d) Licensee will use the Deliverables and any Finished Work solely within the Declared Use, Territory and Term set forth on page 1 and in compliance with this Report, the Terms of Service and all applicable laws, rules and regulations, including advertising, consumer protection and artificial intelligence disclosure laws and Licensee also will not (i) misrepresent the origin of any Output or remove, obscure or falsify any attribution, notices or disclosures associated with any Output; (ii) use any Output to train, fine-tune or improve any artificial intelligence model that competes with Strand or any applicable licensor; or (iii) use any Deliverable in a manner that infringes third-party rights or violates applicable law; and (e) Licensee is solely responsible for obtaining all rights and clearances required for the Finished Work (other than the license to the Licensed Assets granted in Section 2), including for any material Licensee combines with the Deliverables and for the matters identified in Section 4 as not examined.
- Licensee shall indemnify and hold harmless and, subject to Strand's right to control the defense as set forth below, defend Strand, its affiliates and licensors (including the licensors identified in the Licensed Asset Schedule), and its and their respective officers, directors, employees, agents, successors and assigns (collectively, the "Strand Indemnitees") from and against any and all third-party claims, actions and proceedings, and all resulting losses, damages, liabilities, judgments, settlements, fines, costs and expenses (including reasonable attorneys' fees), arising out of or relating to: (i) the Licensee Materials; (ii) any Finished Work, or any modification of any Output or Deliverable made by or for Licensee, except to the extent such claim arises solely from the Licensed Assets as embodied in the Deliverables and used in compliance with this Report; (iii) any use of the Outputs, Deliverables or Finished Work outside the Declared Use, Territory or Term, or otherwise in breach of this Report or the Terms of Service; or (iv) any breach of Licensee's representations and warranties set forth in Section 5 or this Section 10.
- A party seeking indemnification under this Section 10 (the "Indemnified Party") shall give the other party (the "Indemnifying Party") prompt written notice of the applicable claim (provided that any delay shall relieve the Indemnifying Party of its obligations only to the extent it is materially prejudiced thereby). Regardless of whether Strand or Licensee is the Indemnifying Party, Strand shall have sole control of the defense and settlement of any claim subject to this Section 10, using counsel of Strand's choosing. If Licensee is the Indemnifying Party, Licensee shall reimburse Strand, as incurred, for all reasonable costs and expenses of the defense (including

reasonable attorneys' fees) and shall provide reasonable cooperation at Licensee's expense. If Strand is the Indemnifying Party, Strand shall bear the costs of the defense and Licensee shall provide reasonable cooperation at Strand's expense. Licensee may participate in the defense of any claim with counsel of its own choosing at its own expense. Strand shall consult in good faith with Licensee before settling any claim for which Licensee is the Indemnifying Party, and shall not, without Licensee's prior written consent (not to be unreasonably withheld, conditioned or delayed), settle any claim in a manner that imposes any non-monetary obligation on, or requires any admission by, Licensee. Licensee shall not settle or compromise any claim subject to this Section 10 without Strand's prior written consent.

- Strand's aggregate liability arising out of or relating to this Report is limited to Fifteen Thousand Dollars (\$15,000 USD). To the maximum extent permitted by law, Strand is not liable for any indirect, incidental, consequential or special damages, or damages for lost profits, lost revenues, lost savings, lost business opportunity, loss of data or goodwill, service interruption, computer damage or system failure, or the cost of substitute services of any kind arising out of or in connection with this Report or from the use of or inability to use the License or the Deliverables, whether based on warranty, contract, tort (including negligence), product liability or any other legal theory, and whether or not Strand has been informed of the possibility of such damage, even if a limited remedy set forth herein is found to have failed of its essential purpose. The exclusions and limitations of damages set forth above are fundamental elements of the basis of the bargain between Strand and Licensee.
- Claims must be notified to Strand (i) via email; or (ii) by posting to the Services. For notices made by email, the date of receipt will be deemed the date on which such notice is transmitted.
- The limitations of liability set forth in this Section 10 apply solely to Strand and shall not limit Licensee's liability for its indemnification obligations or for any use outside the Declared Use. Licensee's representations, warranties and indemnification obligations under this Report shall survive the Expiry Date and any expiration or termination of the license granted hereunder.

11. CONFIDENTIALITY

This Report records Licensee project information, including project identifiers and the prompts reproduced in the Appendix. Where the Report is provided to a licensor or other rights holder, Strand will disclose only such portions as Strand, in its sole discretion, deems necessary to evidence measurement and payment, and [the Appendix may be withheld].

12. GOVERNING LAW

This Report and License are governed by the Federal Arbitration Act, federal arbitration law and the laws of the State of Delaware, without regard to conflicts-of-law principles. Any dispute, claim or controversy arising out of or relating to this Report, the License or the Deliverables, or the breach, termination, enforcement, interpretation or validity thereof (each, a "Dispute"), will be resolved solely by binding, individual arbitration administered by the American Arbitration Association ("AAA") under its Consumer Arbitration Rules then in effect, except as modified herein. Each party waives any right to a jury trial and to participate in a class, representative or consolidated action or proceeding. The parties may bring qualifying Disputes in small claims court, and either party may seek injunctive or other equitable relief in court to prevent or enjoin infringement or misappropriation of its intellectual property rights. For any matter not required to be arbitrated, the exclusive jurisdiction is the state and federal courts located in Delaware, and each party waives any objection to jurisdiction or venue in those courts.

13. ISSUANCE

This Report was generated automatically by the Strand attribution system in effect as of the issue date set forth in the Footer and issued under the authority of Strand Intergalactic, Inc. It records measurement performed by automated means against a bounded set of Enrolled Reference Assets. Licensee accepted this Report, including the License and all other terms set forth herein and in the Terms of Service, by clicking "Accept" or submitting payment before this Report was issued. That acceptance constitutes Licensee's binding agreement to those terms, with the same force and effect as a signed writing. The Terms of Service as in effect on the issue date in the Footer apply to this Report and the License, notwithstanding any later update to the Terms of Service, and the provisions incorporated in this Report control over any conflicting Terms of Service provision. This Report carries no signature and requires none, whether by Strand or by Licensee; its authority derives from the Report ID set forth in the Footer and the record retained by Strand, including Strand's record of Licensee's acceptance or payment. It is a record of measurement and license to use the Licensed Assets as set forth herein. It is not a legal opinion, and does not substitute for clearance counsel review where the Licensee's distribution requires it.

Release Status and Source Basis

Recorded for the Licensed Assets identified in this Report.

1. LIKENESS AND RELEASE STATUS

Asset ID	Depicted individual	Release ID	Release type	Recorded scope
